10:00 a.m. to 12:00 p.m.

Native Mason Bees

Presented by

**Brigg Franklin, Master Composter/Recycler and
Mason Beekeeper**

Join us for what has become our annual Mason Bee experience! Did you know Mason Bees are one of about 4000 native North American bees, without which most of our fruits and vegetables would not produce. You will see how easy it is to attract and maintain these important pollinators in your yard. Learn about the bees and then get hands-on experience as we will also be cleaning cocoons for our plant sale in the spring. In exchange go home with some of your very own bee cocoons!

We will stay beyond our normal noon hour to get as many bee cocoons cleaned as possible--please accompany us!

**Class Location: CASEE Center, Building B, Room 205
11104 NE 149th Street, Brush Prairie, WA. 98606**

Day/Time: Saturday December 16, 2017 10:00 am-noon

**Fees: Naturescaping members free or \$15.00 for non-members.
Membership per year is \$20.00 (\$15.00) for seniors.**

**Register for classes or for more information:
