

Naturescaping
Wildlife Botanical Gardens
PO Box 763 Brush Prairie, WA 98606

February 17, 2018

10:00 a.m. to 12:00 p.m.

Get to Know Your Camera

**Presented by
Carla Christian, Carla Christian Photography**

Want to use your camera more effectively? Learn what the settings on your DSLR camera mean, and how to control them to create the image you want. From detailed close-ups of flowers and other garden shots to panoramic vistas.

Which settings will work best for your photo? You will learn about aperture, shutter speed, ISO, and focal length. Once you understand how to control your camera settings yourself, you'll leave Program mode behind! Leave knowing how to choose the right camera settings for striking images.

This is an introductory level photography class focused on DSLR and interchangeable lens compact camera systems. Please bring your camera and your instruction manual with you.

Weather permitting, we'll practice your new skills in the garden.

**Class Location: CASEE Center, Building B, Room 205
11104 NE 149th Street, Brush Prairie, WA. 98606**

Day/Time: Saturday February 17, 2018 10:00 am-noon

**Fees: Naturescaping members free or \$15.00 for non-members.
Membership per year is \$20.00 (\$15.00) for seniors.**
