### Integrating Native Plants into your Landscape

Presented by

Brad Mead, Invasive Species Coordinator,  
Clark Public Utilities-Environmental Services

Come learn about the many wonderful qualities of using native plants instead of your typical home improvement store fare. With a bit of work and a lot of love, you can create a miniature wildlife refuge in your own backyard! Be serenaded by the buzzing of bumble bees, the chirping of chickadees and the squeaking of (grey) squirrels. Enjoy beautiful plants with minimal upkeep, chemicals and irrigation.
