November 21, 2020

10:00 a.m. to 12:00 p.m.

Native Mason Bees

Presented by

**Brigg Franklin, Master Composter/Recycler and
Mason Beekeeper**

Join us for what has become our annual Mason Bee experience! Did you know Mason Bees are one of about 4000 native North American bees, without which most of our fruits and vegetables would not produce. You will see how easy it is to attract and maintain these important pollinators in your yard. Learn about the bees and how to clean their cocoons. This year we will be cleaning cocoons on a limited basis outside under cover at the gardens on the first two Saturdays in November and December. In exchange for helping, you can go home with some of your very own bee cocoons! Use the SignUpGenius site below to get registered! <https://www.signupgenius.com/go/20f084ea8ae22a4fc1-mason>

We are partnering with the Fort Vancouver Regional Library as hosts for this online class using Zoom. For registration please use the link below. The Zoom link will be sent to registrants **one hour** before the event begins so all attendees must be registered prior.
