

NatureScaping of SW Washington

Wildlife Botanical Gardens

July 16, 2021

4:00 p.m.

Invasive Weed ID and Reporting

Presented by

Brad Mead, Invasive Species Coordinator
Clark Public Utilities - Environmental Services

Love to spend time outside and interested in protecting local habitat for bees, birds, salmon and everything in between? Join us to learn about invasive species in Clark County and how you can report sightings of invasive species to a network of professionals who can address them. If you own a smartphone join Weed Watchers and help keep Clark County a beautiful and biologically diverse landscape. You can learn how to identify particularly problematic weeds and learn how to use a free and easy to use application to geotag the weed locations.

We are partnering again with the Camas Library as hosts for this online class using Zoom. For registration, please use the link below. Registration confirmations will be emailed along with the link to the class.
