

NatureScaping of SW Washington

Wildlife Botanical Gardens

March 18, 2022

4:00 p.m.

Soil Basics

Presented by

Arthur Fuller, Cowlitz County Master Gardener

Great gardening starts with good soil and the right pH and nutrient levels. Join us for an online class to learn about the building blocks for obtaining a solid foundation in which to have a successful garden. Understanding your soil and the importance of fertilizer is key. The presentation will be followed by the opportunity to ask questions about the topic.

This month, we are again partnering with The Camas Library for this online Zoom Webinar. For registration, please use the link below. After registering, you will receive a confirmation email containing information about joining the class.
