**Hope for a Happy Planet:
One Day-One Backyard at a Time**

Presented by

**Gene Wigglesworth and Grace Teigen, former teachers and
environmental advocates**

Like the famous Margaret Mead who said "Never doubt that a small group of thoughtful, committed citizens can change the world. Indeed it is the only thing that ever has", Grace and Gene bring a can-do approach to the challenges of our time. They will combine a discussion of the origins of the local soils with an explanation of the process of achieving Gold Certification in their own back yard and complete their presentation with a list of more than 100 ways you can choose to make a difference.
