Looking for some alternatives to everyday cleaning chemicals? Join us for a presentation, followed by a make-and-take about DIY herbal green cleaning supplies. We'll discuss a variety of herbs and their properties that are effective in warding off bacteria, viruses, and pests as well as doing cleaning and providing aromatherapy. We'll share several recipes for making your own cleaning supplies, then you'll have an opportunity to make two to take home to try. *Please bring a small (4 oz) jar to hold one product, other supplies will be provided.* Let's make cleaning day, a green day.
