Boost Biodiversity in Your Garden with Insect-Friendly Habitat

Presented by

Amy Campion

Co-author of Gardening in the Pacific Northwest: The Complete Homeowner's Guide

News of crashing insect populations may make you feel hopeless about the future. However, there are many things you can do to make a real difference in improving insect biodiversity where you live. In this talk, you'll learn eight simple steps you can take to create more insect-friendly habitat in your garden, and you'll meet some of the fascinating creatures that show up when you welcome them in.

Time and weather permitting we may go out into the garden and look for bugs.

**Class Location: : CASEE Center, Building B, Room 205
11104 NE 149th Street, Brush Prairie, WA. 98606**
