10:00 a.m. to 12:00 p.m.

Life Afterlife; the wonders of death in the garden

Presented by

**Hannah Schrager, owner Good Year Farms,
native plant nursery (www.goodyearfarms.com)**

Hannah promises to entertain and enlighten you as we find the links between light and dark. Join us to learn about the essential functions furnished by a formidable part of the life-cycle; death & decay. This class will cover interactions between the living and non, demonstrated by the native plants and animals that share our human-influenced landscapes. We will explore gardening with the grim reaper via building soil with spoil, promoting pollinators with perishing plants, and how "the end" always seems to begat a begin. Death eating plants and fungi, cavity nesting insects, birds, and mammals will make an appearance!

**Class Location: CASEE Center, Building B, Room 205
11104 NE 149th Street, Brush Prairie, WA. 98606**

Day/Time: Saturday May 16, 2026 10:00 am-noon

Fees: Naturescaping members free or \$15.00 (+ tax) for non-members. Membership per year is \$25.00 (\$15.00) for seniors.
